Veteran's Driver Licenses

Legislation authorizing the state to publically recognize veterans' military service was passed in 2011. The veteran designation could not be offered, however, until the latest redesign of driver licenses and photo ID cards. A newly designed card and a new process called "central issuance," in which driver licenses and photo ID cards are mailed to citizens from a central location, are now being used in all driver services centers. Veterans must visit a driver services center and present a certified or original copy of their Department of Defense form 214 (DD-214), which is also known as discharge papers, to receive the special designation on a driver license or photo ID card. If the license or card is a renewal or duplicate of a non-commercial driver license, veterans may also visit one of the Department of Safety and Homeland Security's county clerk partners. The standard state issuance or renewal fees apply for the transaction. If it is not time to renew a driver license or photo ID, veterans may get a duplicate to replace a current non-commercial license or ID for \$8 for the first duplicate and \$12 for a second duplicate.

Any disabled veteran who has a 100 percent permanent, total disability from a service connected cause, or any former prisoner-of-war, as determined by the U.S. Department of Veterans Affairs, shall be exempt from the motor vehicle privilege tax upon submission of evidence of such disability to the officer in the county charged with the responsibility for collecting such tax.

As provided in Public Chapter 842, Tenn. Code Ann.
